

Case Study

The Open University

The Open University

Services Provided:

- Disabled persons to safely be evacuated from the Buildings within the complex in the event of an emergency
- Onsite training and delivery
- Ongoing support & maintenance

Background

The Open University provides university education to those wishing to pursue higher education on a part-time and/or distance learning basis, including people with health disabilities, who are officially a priority group for the university, with this in mind the OU contacted us to help with evacuation solutions throughout the campus.

Objectives

- The objective was to implement a number of evacuation Chairs within the Complex
- Provide easy operation for staff to enable disabled persons to be evacuated in event of a emergency
- Provide a comfortable solution for customers to go down stairs in a safe and dignified Manner
- Offer regular maintenance and training programs

Solution

The Solution was to implement the Evacuation Chairs. EV150 Evacuation Chairs were fully supplied by Baronmead which included an ongoing service and training contract.
